### TOTAL TEACHING

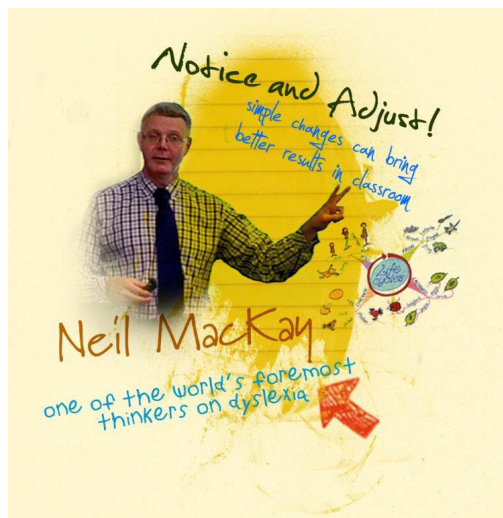

#### Raising the achievement of vulnerable groups

BY  
Neil Mackay

\$89.95

Pre Publication special for orders before June 30

**\$75.00**

Neil's new book is aimed at ordinary class teachers to give them "just enough" of the skills of specialist teachers and RTLB/RTLit to raise the achievement of priority learners and those whose achievement is a cause for concern.

In the climate of ever reducing support and ever greater pressure on class teachers, the book presents strategies which close the gap between thinking and reading/writing and equips teachers to take "notice and adjust" action when students are stuck.

There will be a particular focus on ways to differentiate and accelerate learning for students who do not have formal diagnoses/labels of learning need but who will benefit when their Asperger's, AD(H)D and/or Dyslexic "type" needs are identified and addressed in the unsupported classroom.

This book will be a valuable addition to a teacher's arsenal in dealing with students with additional needs.

### Neil Mackay 2015 Tour

Neil will be speaking in NZ on Total Teaching. Cost is anticipated to be \$250 (inc GST) per person. Maximum of 80 people each day. Venues TBA.

Auckland 4th and 5th May
