Neil Mackay Tour 2015

Come and hear an inspiring speaker who is a world renowned expert on supporting children with learning difficulties.

Neil is in demand worldwide. He is international consultant to the Dyslexia Foundation of New Zealand, as well as education authorities in the UK, Hong Kong and around the world.

He is touring New Zealand once again, after four sell out tours.

Previously speaking on Removing Dyslexia as a Barrier to Achievement, the book now in its 3rd edition, Neil's up coming tour will be focused on his new book, Total Teaching.

Total Teaching is aimed at classroom teachers, to give them "just enough" of the skills of specialist and RTLB/RTLit teachers to raise the achievement of priority learners and those whose achievement is a cause for concern.

There is particular focus on ways to differentiate and accelerate learning for students who lack a formal diagnosis of learning needs but who will benefit when their Asperger's, AD(H)D or Dyslexic "type" needs are addressed in the unsupported classroom.
